

Research awards for Physics students

Aim

The Nicolás Cabrera Institute (INC) calls for 11 awards provided by the Department of [Materials Physics](#) (3 awards), the [Condensed Matter Physics Center](#) IFIMAC (2 awards) and the Departments of [Condensed Matter Physics](#), [Theoretical Condensed Matter Physics](#) and [Applied Physics](#) (2 awards each), for research works performed by undergraduate students of Physics.

Students will present their work during the Young Researchers Meeting of the INC to be held in December 2022.

Eligible students

- Physics students with excellent marks, preferably third year undergraduate students.
- Students must have chosen their tutors and the subject of their work.
- The performed work should be different than previous work by the student (for example, work made for the Physics undergraduate studies), but it can be a continuation of previous work, and the student may choose the same responsible scientist.

Students will present

- A poster or a presentation during the Young Researchers Meeting of the INC. The language of the meeting is English.

Applications

The candidates should send their application to inc@uam.es before 13 June 2022. In their email, they should provide their Name and surnames, the Department, Tutor, Subject of their choice and a copy of their marks (expediente académico).

Awards

11 awards amounting to 1.600 € (including taxes).

Important dates

- 13 June 2022. Application deadline.
- 15 June 2022. Selection of 11 awardees (notified by email).
- Early October 2022. Payment of the award.
- December 2022. Presentation of the work and delivery of the diplomas.
- Work should start on 15 June 2022 and end 22 December 2022.

Committee

The selection committee will have 5 members, one per Department and one member of the INC, chosen by the respective Departments and the INC. At least 2 members will belong to IFIMAC.

Selection criteria

The applications will be ranked following the applicants marks (expediente académico).

There will be at least two awardees per participating Department and three awardees at Materials Physics.
