

# Workshop on *Science and Technology at High Magnetic Fields*

*La Cristalera, Miraflores de la Sierra.*

From 6 to 9 November 2012.

The objective of this workshop is to present a modern overview of Science and Technology at high magnetic fields. The meeting will serve to establish the needed technical coordination for future developments to perform experiments at high magnetic fields. It will allow for a more effective participation of Spanish laboratories in high magnetic field facilities.
